

## **RoHS Identification Instructions**

August 2021

KEMET Electronics Corporation ("KEMET") is a leading global supplier of electronic components ("Electronic Components"). We offer our customers the broadest selection of capacitor technologies in the industry, along with an expanding range of electromechanical devices, electromagnetic compatibility solutions, and supercapacitors.

For military, aerospace, and some commercial applications, it is necessary and/or required to design and manufacture a selection of KEMET's Electronic Components with tin-lead (Sn-Pb) terminations, which may be subject to Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment ("RoHS").

RoHS compliance information may be obtained from the component labels, the shipping documents, and/or Specsheets and Datasheets found on KEMET's ComponentEdge platform: <a href="https://search.kemet.com/component-edge/#/">https://search.kemet.com/component-edge/#/</a>.

Additional RoHS information may be found here: <a href="https://www.kemet.com/en/us/rohs-documents.html">https://www.kemet.com/en/us/rohs-documents.html</a>.

For specific RoHS compliance questions: <a href="mailto:RoHS@kemet.com">RoHS@kemet.com</a>.
