

## C1825X153KGRACTU

Aliases (C1825X153KGRAC7800) SMD Comm X7R HV Flex, Ceramic, 0.015 uF, 10%, 2,000 VDC, X7R, SMD, MLCC, FT-CAP, Temperature Stable, 1825, 2.3 mm

Click here for the 3D model.

| General Information      |                                          |
|--------------------------|------------------------------------------|
| Series                   | SMD Comm X7R HV Flex                     |
| Style                    | SMD Chip                                 |
| Description              | SMD, MLCC, FT-CAP,<br>Temperature Stable |
| Features                 | FT-CAP, Temperature Stable               |
| RoHS                     | Yes                                      |
| Termination              | Flexible Termination                     |
| Marking                  | No                                       |
| AEC-Q200                 | No                                       |
| Typical Component Weight | 380 mg                                   |
| Shelf Life               | 78 Weeks                                 |
| MSL                      | 1                                        |

| Specifications                                                           |                                                    |
|--------------------------------------------------------------------------|----------------------------------------------------|
| Capacitance                                                              | 0.015 uF                                           |
| Measurement Condition                                                    | 1 kHz 1.0Vrms                                      |
| Tolerance                                                                | 10%                                                |
| Voltage DC                                                               | 2000 VDC                                           |
| Dielectric Withstanding Voltage                                          | 2,400 VDC                                          |
| Temperature Range                                                        | -55/+125°C                                         |
| Temp. Coefficient                                                        | X7R                                                |
| Capacitance Change with<br>Reference to +25°C and 0 VDC<br>Applied (TCC) | 15%, 1kHz 1.0Vrms                                  |
| Dissipation Factor                                                       | 2.5%1kHz1.0Vrms                                    |
| Aging Rate                                                               | 3% Loss/Decade Hour: Referee<br>Time is 1000 Hours |
| Insulation Resistance                                                    | 66.6667 GOhms                                      |
