| General Information |                           |
|---------------------|---------------------------|
| Series              | ERP610 SFTY X1-760 Y1-500 |
| Style               | Radial Disc               |
| RoHS                | Yes                       |
| Termination         | Tin                       |
| Lead                | Crimped Out               |
| Qualifications      | UL, CSA, CAN, ENEC, VDE   |
| AEC-Q200            | No                        |

| Specifications        |                            |
|-----------------------|----------------------------|
| Capacitance           | 33 pF                      |
| Tolerance             | 20%                        |
| Voltage AC            | 760 VAC (X1), 500 VAC (Y1) |
| Temperature Range     | -40/+125°C                 |
| Temp. Coefficient     | U2J                        |
| Dissipation Factor    | 5%                         |
| Insulation Resistance | 10 GOhms                   |
| Safety Class          | X1/Y1                      |

| Dimensions |                 |
|------------|-----------------|
| D          | 8mm MAX         |
| T          | 6mm MAX         |
| S          | 12.5mm NOM      |
| LL         | 5mm +/-1mm      |
| F          | 0.6mm +/-0.05mm |
| V          | 1.9mm +/-0.5mm  |

| Packaging Specifications |           |
|--------------------------|-----------|
| Packaging                | Bulk, Bag |
